Mark Neithercut appointed to National Center for Family Philanthropy committee

Detroit – June 7, 2011 – Mark E. Neithercut, principal and founder of **Neithercut Philanthropy Advisors LLC**, has been selected to serve on a new Issues Advisory Committee for the **National Center for Family Philanthropy**. The National Center for Family Philanthropy is a nonprofit resource center dedicated exclusively to families who give and those that work with them. Neithercut is looking forward to this opportunity to work with the National Center for Family Philanthropy to share ideas about key trends, topics, opportunities and dilemmas facing the field of family giving.

Neithercut Philanthropy Advisors has previous experience working with the National Center for Family Philanthropy on the implementation of the National Center's Pursuit of Excellence assessment process, a process designed specifically for the assessment of family foundations.

Neithercut Philanthropy Advisors creates strategies for effective, rewarding philanthropy for foundations, charitable individuals and professional advisors around the U.S. The firm has extensive experience in working with foundations to develop strategic frameworks that ensure maximum impact, success, and fulfillment. Recent clients include the Max M. and Marjorie S. Fisher Foundation, the Matilda Wilson Fund, the Kansas Health Foundation and the Ruth Mott Foundation. For information, go to www.neithercutphilanthropy.com.

The National Center for Family Philanthropy is the only nonprofit resource center dedicated exclusively to families who give and those that work with them. The National Center has an understanding of and experience with the very personal act of giving which ensures that these donors and their advisors have access to the highest quality information and the encouragement needed to articulate, pursue, and achieve their charitable missions, understand and meet their governance and management needs, and have a significant, positive impact on the lives and work of those they support.
