

INDIVIDUAL DONOR & FAMILY BUSINESS Philanthropy Services

You've been successful in life and want to pass that good fortune on to others. Neithercut Philanthropy Advisors wants to help you bring clarity and structure to your charitable efforts, because giving is most effective when it's driven by a focus on values and outcomes.

We work with individual donors and small family businesses to create and implement philanthropic plans that meet meaningful and measurable giving objectives. Armed with a strategy that aligns with your unique charitable goals, you will be equipped to evaluate your options. Rather than reacting to ad hoc giving requests, a process and a purpose will increase the impact of your giving.

Our experienced professionals are prepared to deal with unique philanthropy issues that other advisors may not be equipped to handle. We offer a comprehensive range of services – which can be performed independently or in combination with others as part of a customized plan – to help you meet whatever philanthropic challenges and opportunities you face, now and in the future.
